 9am - 11:30am

JARED'S FUND

Jared Connor is 3 years old, and is the son of Ricky and Reia Connor. Ricky is a 7-1/2 year member of the Everett Police Department and Reia is a former Patriots Cheerleader and founder of Phunk Phenomenon Dance Studio. Recently, Jared was diagnosed with a rare disease. He has Sanfilippo Syndrome, MPS111B.

Children with Sanfilippo are missing an essential enzyme that breaks down a complex body sugar called heparin sulfate. These sugars slowly build up in the brain, stopping normal development and causing hyperactivity, sleep disorders, loss of speech, dementia and typically death before adulthood. Other complications include blindness, seizures, mental retardation and; progressive neurological disease leading to becoming wheelchair bound and the inability to care self. There is no cure...

The disease is unknowingly passed on by parents who are carriers of the gene. Right now doctors can do little to treat Sanfilippo symptoms and nothing to stop the regression. There are various experimental treatments being tested worldwide to lessen the effects this terrible disease. Though insurance may cover much of Jared's medical care and doctor visits, many other experimental treatments, vitamins and dietary needs are not covered. These expenses will add up as time goes on. Financial worries should not be a concern for Ricky and Reia at this difficult time. They want to give Jared the best chance for a normal life.

PRE-REGISTRATION FORM \$20 Pre-Registration Fee Per Person
